

Claims

What we claim as our invention is a debit card with a weekly limit.

Dependent claims

1. We have also invented a credit card with a weekly limit.
2. Currently we can have more than one debit card on a single account; each can withdraw all the money in the account. Let's say these are 'A' class cards. We have invented a 'B' class debit card [and credit card] that has a weekly limit, and cannot withdraw all the money in the account only that much every week as allowed by the limit.
3. We also want to market debit cards that can be purchased like phone cards, and can be used all over the world.
